Adam,

I am still discussing the reservation against the United States with DOJ. I hope to be able to get back with you in the next couple of days. I will check in on Wednesday and give you an update.

Dusty

Adam,

I do not know what DOJ will say about the deletion of 113(f), but will forward your request to DOJ. This paragraph has to be approved by EDS. I will let you know when I hear back from DOJ.

Thank you.

Dusty

Subject: Anaconda Copper Mine Site - Draft AOC

Dusty – Thanks for providing the revised draft of the AOC last Friday. I have closely reviewed it, and the vast majority of the proposed changes are acceptable to ARC. The attached redline shows the following additional changes, only one of which is substantive:

¶ 13, definition of “Work” – I don’t think we need the exception for Record Retention

requirements, since Work only refers back to the prior orders.

¶ 29 – ARC’s reservation should not be limited to contribution claims under § 113(f).

¶ 47 – There is an extraneous “and” in the first line.

If these additional revisions are acceptable to EPA, ARC is prepared to move forward with signing.
